

Minnesota Radio Control Soaring Society

If you would like to visit one of our meetings, or experience RC Soaring for yourself, please contact any of the Club Officers or Area Coordinators listed on our Web site at <http://www.mrcss.org/> and we will be happy to arrange a one-on-one, hands on, flying experience at one of our seven flying sites. Or, if you need help building your model give us a call. Our members are more than willing answer your questions, and/or to help you when you get stuck or just want a second opinion.

Club Area Coordinators are ready to help in all areas of soaring. We fly a wide variety of RC sailplane models including *Thermal Duration Soaring*, *Electric Assisted Gliders*, and *Aero-Towing*, along with a very active contingent of *Slope Soaring Flyers*. No matter what soaring discipline interests you may have, chances are you will soon have a new soaring buddy.

We fly most weekends at three “Thermal Duration Sites” and four “Slope Sites.” Our web site will give you more insight about our activities. **CLUB MEETINGS** are normally on the **Third Thursday** monthly Sept. thru May at 7:00pm at the Southdale Branch of the Hennepin County Public Library (70th & York Ave S., Edina, MN). Please do check our Web Site to confirm the Day and Date in the event that we must reschedule due to a conflict in scheduling our meeting room at the Library.

As a member of MRCSS, you will enjoy the best Soaring sites the Midwest has to offer.
